Karilá **chocolate flowers** are a new innovative gifting product. Our large range of chocolate flowers combines sense of **beauty** – the flower, and **delightful flavours** – the chocolate. The edible flowers are the perfect **present** – it is a flower, which does not wither. It has a sweet ending instead. All our chocolate flowers and are **handmade, and so each of a kind**.

Chocolate flowers are bought not only for Valentine's, Woman's and Mother's Day. People, special to our clients, have birthdays every day. Birthday is rather the occasion, when special and different present is searched.

Flower beads are available as mixed colour sets. The box of flower Beads is 18cm long.

Blossom: modelling chocolate, natural colours, natural berry paste seasoning (pineapple, strawberry and blueberry).

Self-life 14 months. To be stored in room temperature. Bears well temperature variation, also minus degrees. Yet not temperature s over 24c Celsius. Also avoid direct sunlight and temperature over 21c Celsius at the same time.

Produced in Estonia, European Union.
